*These prices are not inclusive of consultant fees

How to get to us

The OrthTeam Centre is only 10 minutes from Manchester International Airport and approximately 20 minutes by car from both Piccadilly and Victoria railway stations in Manchester city centre.

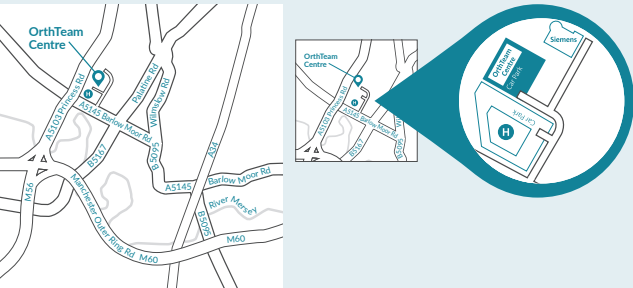

Car parking

Enter the site from Barlow Moor Road, go to the end of the drive, bare left and the OrthTeam Centre is located in the OHM building. At the barrier, please select the OrthTeam Centre on the panel.

Parking is free and spaces 52 to 59 are exclusively for OrthTeam Centre patients. If these spaces aren't available, please use bays 8, 9, 11 to 38.

Other travel options

- Public transport: plan your journey by bus, Metrolink or train, visit www.tfgm.com
- Nearest Metrolink stations: Withington Metrolink and Burton Road Tram Stop (which are less than a mile way)

OrthTeamCentre
Patient information

Thank you for choosing the OrthTeam

At the OrthTeam Centre, our leading team of consultants provide world-class expertise combined with state-of-the-art diagnostics. We offer a wide range of specialist support and have an expert available for every musculoskeletal problem – from elite athletes with sports injuries to people with degenerative and arthritic conditions.

Information about your appointment

Your appointment letter confirms the date and time of your appointment. Please arrive approximately 10 minutes before your appointment to allow time for you to check in. It's important to us that you are fully informed at every stage of your healthcare journey and your consultant will help you to understand your condition and treatment options.

We also want you to feel comfortable asking questions and would encourage you to ask for more information, if there is anything that you find unclear. We have included some points on the following page to help you get the most out of the time with your consultant.

Accessibility

We are proud of our purpose built facility that is fully accessible for our disabled patients. We have disabled parking, accessible toilets and wheelchairs available if required and we are also able to provide interpreting services with notice.

If you have any specific needs to help you access our services, please let us know prior to your appointment.

Chaperone

If you need a medical examination, there is always a chaperone available if you wish to have one present. This does not need to be arranged prior to your consultation.

Before your appointment:

- Make a list of your most important questions
- Write down all your medications and past medical history
- Make a note of your symptoms and what makes them better or worse
- Remind yourself of the results of any tests or scans you have already had

Tests and scans:

- Do you understand what they are for and when you will get the results?

Treatment:

- What are the options?
- Are there any side effects or risks?
- How long will you need treatment for?
- How will you know if the treatment is working?
- Is there anything you should stop or avoid doing?
- Are there any exercises that you can do at home?

What happens next:

- Do you need a follow-up appointment?
- Who do you contact if things get worse or you need advice?
- Is there any written information or a website where you can go for more information?

Outpatient tests, treatments and procedures

When you attend your outpatient appointment, your consultant may recommend further tests, procedures or other treatments. There is no obligation to have these if you do not wish to. If you have any questions, please discuss these with your consultant.

Please be aware that for any treatment, tests or procedures there will be both an OrthTeam Centre charge and a consultant charge, please ask a member of our team if you would like to confirm costs.

If you have private medical insurance

We want to ensure that all aspects of your care are managed as effectively as possible, including the processing of any bills. If you have private medical insurance, we will usually invoice your insurance company directly. Before your visit, you should contact your insurer to confirm you have adequate cover in place. We will request the name of your insurer, membership or policy number, along with a pre-authorisation or claim reference number.

If you are paying for your own treatment

We would request that all self-funding patients settle the centre fees at the time of their appointment. Any outstanding charges will be confirmed in writing. After seven days, the debit or credit card provided will be charged automatically, unless you choose to pay by an alternative method.

Please note that your consultant will invoice you directly for their fees.

Guide to OrthTeam Centre charges for common tests, treatment and procedures

We have included guide prices for a number of common treatments and diagnostic tests overleaf. These prices are correct at the time of print and are subject to change. If you would like to know the cost of a test, treatment or procedure which is not listed please contact us on 0161 447 6888 or ask a member of our team during your visit.
